FULL PROGRAM - ISPSM Annual conference 2025 - GMT Time				
FRIDAY 24/10				
TIMEZONES: Los angeles GMT -7; Pretoria GMT + 2; London GMT+1; Bruxelles GMT +2; Tokio GMT +9; Sydney GMT +11				
7:00 AM	F. Calzavarini - Presidential address			
7:30 AM	Keynote: Sabrina Coninx "Distruptive technologies and human niche construction" Marco Facchin [Chair]			
8:30 AM	Parallel sessions			
	Room 1 - Representation	Room 2 - Valence and affect (8:30-11:00)	Room 3 - Symposium: Philosophy of Neuromorphic AI	
	Valentina Martinis [Chair]	Lara Bräuchle [Chair]	Internally chaired	
	Lotem Elber-Dorozko (She/her) & Devin Y. Gouvêa - ‘Neuronal representation’ is not a defective concept: Ambiguity as a sign of science in progress	Louis Gularte (He/him) - Affective Valence as Reward & Punishment (schm)Representation: Solving the Representationalist-Motivationalist Dilemma	Peter Grindrod (He/him) What present neuromorphic AI cannot do	
	Matej Kohar (He/him) - Lessons from Locusts: The Individuative Role of Representational Content in Computing Systems	Anastasija Filipović (She/her) - A Unified Account of Extended Affectivity: Sensorimotor Enactivism & Predictive Processing	Inês Hipólito (She/her) Neuromorphic AI and the "Computational Ether": a call for physical re-foundation	
	Silvano Zipoli Caiani & Claudio Fabbroni (He/him) - Teleosemantics, Normativity and the Fear of Infinite Regress	Zeynep Sina Ersan (They/them) - On How Pain Perception And Pleasure Processing Are Causally Connected: A Case Of Bdsm Interest In Individuals With Adhd+	Derek Shiller (He/him) Neuromorphic hardware and the prospects of enbrainment	
	Juliana Faccio Lima (She/her) - 'We'-beliefs and Group Action	Lucca Greco (He/him) - Affect Theory and the Expansion of Chomsky's Methodological Naturalism	Wanja Wiese (He/him) Does consciousness require neuromorphic processing?	
10:30 AM	Break			
11:00 AM	Keynote: Fiona Macpherson "A problem for determining the structural features of experience: a pessimistic meta-induction" Marco Facchin [Chair]			
12:00 PM	Parallel sessions			
	Room 1 - Enactivism and its critics	Room 2 - Thinking outside the brain	Room 3 - Metaphysics of the mind	
	Maria Fedrova [Chair]	Zeynep Sina Ersan [Chair]	Niccolò Negro [Chair]	
	Carl Sachs (He/him) - A Sellarsian Argument for Liberal Enactivism	Berke Can (He/him) - External cognitive tool use: Modelling uniquely human cognitive development	April Owens (She/her) - Thinking On Our Feet: Towards an Embodied Functionalism	
	Adrian Wieczorek (He/him) - Don't Stand So Close to Me. A Critique of Radical Enactive Vision and a Plea for Representationalism	James Grayot (He/him) - How does the embodied and extended mind internalize content?	Cong Chen (He/him) - Trivialisms- about explanatory gap	
	Nicola Weiss (She/her) - Sensorimotor Enactivism: Three Responses to Dreaming.	Giulia Piredda (She/her) - Extended mind, extended consciousness and the “sensorimotor constraint”: philosophy of mind meets philosophy of technology	Minal Patil (She/her) - From Brain to Being: Turiya—The Upanishadic Consciousness Beyond Neural Limits	
		Nancy Salay (She/her) - How Words Help Us Think	Achraf El Rhilani (He/him) - Affordance-based Singularity	
2:00 PM	Break			
2:15 PM	Parallel sessions			
	Room 1 - Memory	Room 2 - Language and mind	Room 3 - Philosophy of Neuroscience	Room 4 - Epistemologies

	Niccolò Negro [Chair] Doudja Boumaza (She/her) - Multiple functions hypothesis and episodic memory Marta Caravà (She/her) - On the rationality of holding onto one's 'past' emotions José Carlos Camillo (He/him) - An explanatory model for observer memories	Jimena Clavel-Vazquez [Chair] Ilir Isufi (He/him) - A Critique of the Dissociation between Language, Culture, and Cognition in Research on Linguistic Relativity. Andrea Onofri (He/him) - Asymmetric Linguistic Conventions Itamar I. Dreymann (He/him) - A New (and Empiricist) Theory of Metaphor - The Transparency-Sheet Theory Gareth Norman (He/him) - Who's Afraid of Zeugma?	Antonio Lizzadri [Chair] Luis Favela (He/him) - Emergence Makes Neuroscience Possible Nicolás Hinrichs (He/him) - Epistemic Priors of Hyperscanning Marco Facchin (He/him)- Radically embodied cognitive ontology David Barack (He/him) - Neuron doctrines	Valentina Martinis [Chair] Philip Groth (He/him) - The Epistemic Role of Mental Imagery in Perceptual-Belief Formation Shadi Heidarifar (She/her) - Beneath the Concept: The Quiet Norms That Make a Mind Emma Otterski (She/her) - Mindreading, power, and social status
4:15 PM	Keynote: Giovanni Rolla "Will artificial systems ever be capable of human-like cognition?" Marco Facchin [Chair]			
5:15 PM	End of sessions			
	SATURDAY 25/10 TIMEZONES: Los angeles GMT -7; Pretoria GMT + 2; London GMT+1; Bruxelles GMT +2; Tokio GMT +9; Sydney GMT +11			
7:30 AM	Keynote: Ying-Tung Lin "Self and other in observer memory and imagination" Valeria Becattini [Chair]			
8:30 AM	Parallel sessions			
	Room 1 - Imagination and imaginary processes Arata Matsuda [Chair] Adriana Alcaraz Sanchez (She/her) - Sucked in by the fantasy world: The case of Maladaptive Daydreaming Sacha Behrend (He/him) - The three faces of mental imagery: Towards a New Definition of Mental Imagery Lu Teng (She/her) - Metacognition in Aphantasia: Taking the “Conscious” View Seriously	Room 2 - Philosophy of psychiatry José Caarlos Camillo [Chair] Benedetta Cogo (She/her) - Getting Personal in the Philosophy of Psychiatry. Broadening Our Minds ... and More Ewa Grzeszczak (She/her) - Psychiatric categories as natural kinds – is the application of HPC to psychiatry worth it? Chinchella Nicola (He/him) - Enacting Recovery: Virtual Reality, Active Inference, and Cognitive Behavioural Therapy Zeynep Oğuzman (She/her) - What If Psychosis Speaks Back? Co-experiencing the Lived World Through Second-Person Psychiatry	Room 3 - Consciousness Jacopo Colelli [Chair] Daniel Weger (He/him) - Defending phenomenal structuralism: An error-theoretic account of phenomenal intrinsicism Sinem Elkatiş Hatipoğlu (She/her)- The distinction between conscious and non-conscious mental states: How should state consciousness be understood? Francesco Ellia (He/him) - Intrinsic Universal Structures and Extrinsic Local Functions Minal Patil (She/her) - From Brain to Being: Turiya—The Upanishadic Consciousness Beyond Neural Limits (MOVED IN THIS ROOM)	Room 4 - Symposium: Advances in Neural Representations Internally chaired Bryce Counts - Multilevel Neural Computation Johan Heemskerk - The Implicit Theory of Content in Cognitive Neuroscience Matthew Nestor - When is neural activity (or anything) causally efficacious in virtue of its formal structure? A measurement theoretic approach
10:30 AM	Break			
10:45 AM	Keynote symposium: "Mapping non-neural cognition: a synthesis of experimental and theoretical perspectives" Margherita Bianchi "Multisensory, multimodal and temporal aspects in plant signalling and behavior" Leonardo Bich "Minimal cognition is grounded in biological regulation" Quiran Wang "Mind the mould: from empirical study to theoretical insights into non-neural learning and decision-making" Liberty Severs [Chair]			
1:00 PM	Break			
1:15 PM	Parallel sessions			
	Room 1 - Artificial Intelligence	Room 2 - Epistemology	Room 3 - Meta-philosophy of mind	Room 4 - Folk psychology and the plurality of mind

	Carlos Barth [Chair] Rémi Tison (He/him) - Can ChatGPT read my mind? AI social cognition and mindshaping Parker DuVall (He/him) - Can AI Agents Contribute to Group Understanding? Oliver Milne (He/him) - Automimesis: operationalising the structure of human desire to produce humanlike motivations in AI systems Marco Peruzzo (He/him) - The (yet) Undefined Artificial General Intelligence - On the Nature and Evaluation of AGI	Antonio Lizzadri [Internal Chair] Tomy Ames (He/him) - Illusory Evidence, or How Perceptual Illusions Justify Beliefs Antonio Lizzadri (He/him) - Hybrid Minds Between Knowledge and Information Don Oxtoby (He/him) - Does Perceptual Recognition Require Judgment? Julian Hauser (He/him) - Explicit self-representation and immunity to error through misidentification	Laura Oppi [Chair] Mads Dengsø (He/him) - The mind and the Territory Arata Matsuda (He/him) - The Meta-Meta-Problem of Consciousness Valentina Martinis (She/her) - What's 'in' your mind? Marks of the mental in early analytic philosophy Urte Laukaityte (She/her) - The Varieties of Philosophical Approaches: Analytic, Continental, and Synthetic	Marco Facchin [Chair] Luuk Brouns (He/him) - Folk Psychology in Cross-Cultural Context: A Non-Universalist Account Based on Interactive-Mindshaping Practices Kevin Reuter (He/him), Tomasz Zyglewicz, Eric Mandelbaum - Folk ontological relativism Laida Arbizu Aguirre (She/her) - The Mind(s) We Deny: Epistemic Denial and the Marginalization of Cognitive Diversity Đorđe Lazarević (He/him) - Artificial Intelligence and the Challenge of Creative Spontaneity
3:15 PM	Break			
3:30 PM	Parallel sessions			
	Room 1 - Symposium: Realism in Neuroscience Internally chaired Ken Aizawa On the evidence for neural representation Frances Egan What does representational realism require? Gualtiero Piccinini How to observe mental representation, their semantic content, and the causal efficacy of their content Danielle Williams An epistemic problem for the realist about mathematical function in neuroscience	Room 2 - Action and interaction Doudja Boumaza [Chair] Mercedes Rivero-Obra (She/her) - Beyond Affordances: Interacting in Social Environments Through Patterns of Action. Elena Holmgren (She/her) - Group Flow as Spontaneous Collective Agency: A Phenomenological Account Iwan Williams (He/him) - Intention-like representations in language models? The case of function vectors Jacopo Colelli (He/him) - Challenging Enactivist Anti-Representationalism: From Cognitive Mediation to Phenomenological Constitution	Room 3 - Audition, communication, and language Andrea Onofri [Chair] Mariela Destéfano (She/her) - Doing Without Public Meanings Jabran Amanat-Lee (He/him) – The Little Voice in the Head: Does it Say Anything About Metacognition? Jonida Kodra (She/her) - Control in auditory verbal hallucinations Pravajya Pandey (She/her) - The Feminist Epistemology of ADHD: Unmasking Women's Experiences and Knowledge	Room 4 - Models, theories and explanations José Carlos Camillo [Chair] Yichu Fan (She/her) - Phenomenon Reconstitution as a Tool for Explanatory Progress Alberto Greco (He/him) - How can cognitive science make explanations in a single framework: using flows beyond levels Mark-Oliver Casper (He/him) - Modeling Cognition's Complexity: A Dual Approach to the Motley Crew Argument Chen-Wei Wu (He/him) - Conspiracy Theories as Addictive Goods
5:30 PM	End of sessions			
	SUNDAY 26/10			
	TIMEZONES*: Los angeles GMT -7; Pretoria GMT + 2; London GMT +0 Bruxelles GMT +1; Tokio GMT +9; Sydney GMT +11 *Note: On this day we adjusted the GMT time in the schedule because some countries will switch back to Standard Time. - If your country switches back to Standard Time, you will be joining at the same local hour. - If your contry does not change the time, you will be joining one hour after than previously.			
8:30 AM	Keynote: Mpho Tshivhase "No Ghost in the Machine: Resisting Digital Appropriation of African Ancestors" Valeria Becattini [Chair]			
9:30 AM	Parallel sessions			
	Room 1 - Philosophy of technology Arata Matsuda [Chair] Ritesh Bansal (He/him) - Teasing Out the Nature of the Design and Application of GPS from Nudging in the Context of Ethics of Nudging Ben White (He/him) - Techno-Wantons: Adaptive Technology and the Will of Tomorrow Louis Looock (He/him) - The Cognitive Footprint of AI Usage Annita Pellegrini (She/her) - Demystifying the discourse around AI - a proposal	Room 2 - The bounds of experience Marco Facchin [Chair] Shawn Prest (He/him) - Valence, uncertainty and meditative experience: Understanding affective valence with the active inference framework Gaia Mizzon (She/her) - Telling Our Dreams. How the Philosophical Debate on Dream Experience Relies on Assumptions About the Narrative Character of Dreaming and Dream Reports. Maria Fedorova (She/her) - The Self Reimagined on Psychedelics Giulia Santelli (She/her) - Reframing Akrasia in Addiction: From Philosophical Paradox to Neurocomputational Dynamics	Room 3 - Consciousness and perception Jimena Clavel-Vazquez [Chair] Savvas Ioannou (He/him) - Consciousness and the Ability to be Conscious Wiktor Lachowski (He/him) - Cognitive Phenomenal Unity: Bridging Perception, Thought and Learning Darryl Mathieson (He/him) - Degrees of Minimal Self-Consciousness Laura Oppi (She/her) - What is the Perky effect?	

11:30 AM	Keynote: Michelle Liu "Mental imagery and harmful language" Liberty Severs [Chair]			
12:30 PM	Break			
1:00 PM	Parallel sessions			
	Room 1 - Perception Laura Oppi [Perception] Alice Andrea Chinaia (She/her) - Are There Norms of Rationality for Perception? Evaluating Experience-forming Processes under Bayesian Norms Tiina Carita Rosenqvist (She/her) - Color and perceptual agreement Niccolò Nanni (He/him) - Perceiving Intermodal Functional Relations Michael Omoge (He/him) - Ingress Controllers: Reconciling Encapsulation, Penetration, and Perceptual Learning	Room 2 - The mind and its contents April Owens [Chair] Johan Heemskerk (he him) - Swampman's Last Stand: Who is in Danger and How to Avoid It Yen-Tung Lee (he him) - Phenomenal Content in Mixed Reality Ayoob Shahmoradi (he-him) - Does thinking require sensory grouding? Frederik T. Junker (he-him) - Reasoning With Cognitive Maps	Room 3 - Deliberation and social cognition Niccolò Negro [Chair] Souichiro Honma (He/him) - Deliberation and Source Freedom as Production Mark Herman (He/him) - Behavioral Ethics & Idealized Subjective Morality Han Zhiheng & Mizumoto Masaharu (They/them) - Moral Cognition Across Cultures: The Influence of Intent and Perspective in the Trolley Problem Maria Matuszkiewicz (She/her) - Intention recognition without inference. A case of moderate intentionalism about demonstratives	
3:00 PM	Break			
3:15 PM	Parallel sessions			
	Room 1 - Metaphysics of mind April Owens [Chair] Dan/Durso (He/him) - LLMs, Plant Minds, and Why Multiple Realization is Not Enough Chris Percy (He/him) - Is Global Workspace a functionalist theory? Ignition thresholds point to a possible hybrid interpretation Amir Horowitz (He/him) - Revisiting the Chinese Room Riccardo Mona (He/him) - Dennett's pragmatism as a form of realism in philosophy of mind	Room 2 - Theoretical cognitive science and biology 15:00-17:30 PM José Carlos Camillo [Chair] Maria Luiza Iennaco (She/her) - Towards a Biogenic Approach to Attention Bartosz Radomski (He/him) - The Concept of Adaptivity: A Missing Piece in Cognitive Science? Liberty Severs (She/her) - Organisation before representation: how control structures support adaptive strategies for learning and decision-making Katsunori Miyahara, Norihiko Kamaya (He/him) - Testate amoeba and the body-schema: An embodied approach to minimal agency Carlos Barth (He/him) - Relevance sensitivity as a cognitive gadget	Room 3 - Symposium: Current discussions in the Philosophy of Cognitive Sciences Internally Chaired Nicolás Alejandro Serrano Mechanistic explanations: antireductive revisionism Sabrina Haimovici The plurality of conceptual formats and the role of language-like representations Fernanda Velázquez Dual Processing and animal minds Pedro Bianchi A possible unifying explanation of cognitive faculties	Room 4 - Symposium: Laws of Appearance: Between Contingency and Necessity Internally Chaired Ned Block Can perception be inconsistent? Alfredo Vernazzani Necessary laws of appearance: perceptual segregation and qualitative discontinuities in humans and other creatures E.J. Green Empirical explanations of the laws of appearance
5:15 PM	Break			
5:30 PM	Keynote: Zoe Drayson "Mind beyond mechanism: explanations in cognitive science" Jimena Clavel-Vazquez [Chair]			
6:30 PM	Meme prize			
6:45 PM	Concluding remarks			
7:30 PM	End of conference
